**SOYBEAN PIRACY STATEMENT**

Seeds containing the Roundup Ready® trait and the Roundup Ready 2 Yield® trait are protected under numerous United States patents, including Patent No. RE39,247. It is unlawful to save Roundup Ready® Soybeans or Roundup Ready 2 Yield® Soybeans for planting or transfer to others for use as a planting seed.

**BENEFITS OF NEW SEED**

- Convenience**
  - High quality and high yield potential product vs. bin-run
  - Reliable seed supply in many maturities
- Economics of New Seed vs. Bin-Run**
  - Average loss of ~10–15% cleanout at harvest for bin-run seed
  - Bin-run planting rates are generally 15% higher than new certified seed
- Limited Warranty Benefits**
  - Dealer agronomy support before and after the sale
  - Risk management benefits of Roundup Rewards® (over \$600 million in benefits paid)
- New Innovations**
  - Research and Development Milestones
    - 2010 — 4 commercial product launches
    - Pipeline: 11 advanced stage high impact products
  - Our very preliminary estimate is that farmers get a \$6 benefit for each \$1 spent on private sector research.
